

WE LOVE DOGS

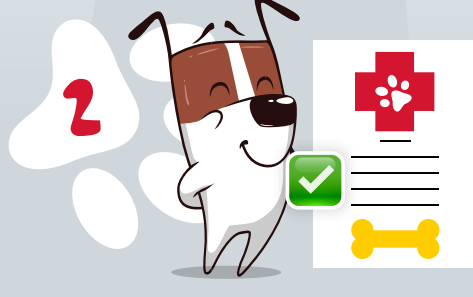

FOR A PERFECT 4 LEGGED HOLIDAY

At Marina di Venezia our four-legged friends are welcome! Help us to make them feel at home with a few simple rules!

On arrival, **provide notification of your dogs**: (max 3 dogs per pitch and Rex Lodge).

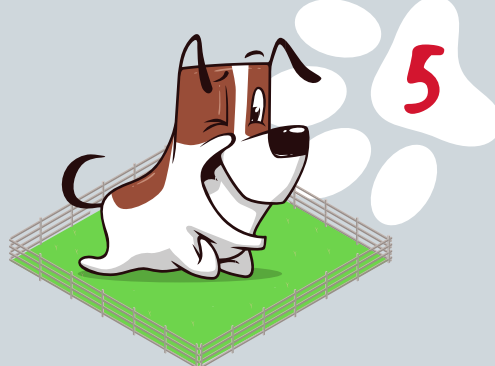

Bring your vaccination booklet stating that your four-legged friends are up to health regulations.

Dogs on a leash can move anywhere in the campsite, **with the exception of the supermarket, the AquaMarina Park, the sanitary blocks** and everywhere it is expressly indicated.

Dogs must be kept on a leash at all times and the dog owner must carry a muzzle, which must be used on public transport.

It is possible to fence off a small area, as long as an appropriate distance is kept from neighbouring pitches to ensure free passage easy access to utilities and a clear escape route in case of emergency.

In sanitary blocks **WC 6 and WC Gate 0** (on the beach) showers are available to clean dogs.

The pitch and all areas used by dogs must be kept clean, using the ecological bags distributed free of charge, which **must be placed in the brown organic waste bin**.

The dog beach, with a large bathing area, is accessible from the **sea access Gate 0**.

Our furry friends can also have restless or sad days. We ask you to stay close to them and **make sure they do not disturb anyone**.

Please remember that **dogs should not be taken on a leash when cycling**, for their health and for everyone's safety: **Italian law forbids it!**

Doctor Dog: a private veterinary service is available every day from Monday to Saturday.

Healthy and fit: a large exercise area with equipment where your four-legged friend can play and exercise.
